Note: the status of every claim must be indicated after its claim number by using one of the following status identifiers: (Original), (Currently amended), (Canceled), (Previously presented), (New), (Not entered), (Withdrawn) and (Withdrawn-currently amended).
 - D. The claims of this amendment paper have not been presented in ascending numerical order.
 - E. Other: See Attached sheet.

For further explanation of the amendment format required by 37 CFR 1.121, see MPEP § 714 and the USPTO website at <http://www.uspto.gov/web/offices/pac/dapp/opla/preognotice/officeflyer.pdf>.

TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

- Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted within the time period set forth in the final Office action.
- Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the **corrected section** of the non-compliant amendment in compliance with 37 CFR 1.121, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action.

Extensions of time are available under 37 CFR 1.136(a) only if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action.

Failure to timely respond to this notice will result in:

Abandonment of the application if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action; or

Non-entry of the amendment if the non-compliant amendment is a preliminary amendment or supplemental amendment.

Notice of Non-Responsive Amendment

The reply filed April 8, 2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

Applicant's amendment filed on April 8, 2005 has not been entered and is not fully responsive to the prior Office action. Applicant cannot file an RCE to obtain continued examination on the basis of claims that are independent and distinct from the claims previously claimed and examined as a matter of right (i.e., applicant cannot switch inventions). See 37 CFR 1.145.

§ 1.145 Subsequent presentation of claims for different invention.

If, after an office action on an application, the applicant presents claims directed to an invention distinct from and independent of the invention previously claimed, the applicant will be required to restrict the claims to the invention previously claimed if the amendment is entered, subject to reconsideration and review as provided in §§ 1.143 and 1.144.

Any newly submitted claims that are directed to an invention that is independent and distinct from the invention previously claimed will be withdrawn from consideration and not entered. In this application Applicant cancelled all previous claims and has filed new claims 59-78. The previous claims were directed towards a cheque value system, i.e. "A system for obtaining data for use in a table game system..." The new claims deal with a new invention involving remote terminals in which supervisors can track players including allowing a player to move from a first table game to a second. The new claims have very little to do with the cheque value system previously claimed. Applicant has now merely inserted two limitations from the old claims

Art Unit: 3713

(cheque value system) into these new claims. The overall claims are towards an entirely separate invention, not previously examined. As an example, if applicant was claiming a speaker and aspects of that speaker, and then decided to cancel all claims to the speaker and submit new claims for a slot machine with certain wagering and game functions that include that speaker, this would be considered a separate invention even though it includes a part of the first invention attempting to be claimed. Therefore, for these new claims to be examined, Applicant may file a regular continuation application, not an RCE. As a side note, the Examiner notes that Applicant has not mentioned where these claims are supported in the specification nor has submitted arguments why they are patentable over the references cited as required by 37 CFR 1.111(b) and MPEP 714.02 and 2163.06.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
